This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

Über dieses Buch

Dies ist ein digitales Exemplar eines Buches, das seit Generationen in den Regalen der Bibliotheken aufbewahrt wurde, bevor es von Google im Rahmen eines Projekts, mit dem die Bücher dieser Welt online verfügbar gemacht werden sollen, sorgfältig gescannt wurde.

Das Buch hat das Urheberrecht überdauert und kann nun öffentlich zugänglich gemacht werden. Ein öffentlich zugängliches Buch ist ein Buch, das niemals Urheberrechten unterlag oder bei dem die Schutzfrist des Urheberrechts abgelaufen ist. Ob ein Buch öffentlich zugänglich ist, kann von Land zu Land unterschiedlich sein. Öffentlich zugängliche Bücher sind unser Tor zur Vergangenheit und stellen ein geschichtliches, kulturelles und wissenschaftliches Vermögen dar, das häufig nur schwierig zu entdecken ist.

Gebrauchsspuren, Anmerkungen und andere Randbemerkungen, die im Originalband enthalten sind, finden sich auch in dieser Datei – eine Erinnerung an die lange Reise, die das Buch vom Verleger zu einer Bibliothek und weiter zu Ihnen hinter sich gebracht hat.

Nutzungsrichtlinien

Google ist stolz, mit Bibliotheken in partnerschaftlicher Zusammenarbeit öffentlich zugängliches Material zu digitalisieren und einer breiten Masse zugänglich zu machen. Öffentlich zugängliche Bücher gehören der Öffentlichkeit, und wir sind nur ihre Hüter. Nichtsdestotrotz ist diese Arbeit kostspielig. Um diese Ressource weiterhin zur Verfügung stellen zu können, haben wir Schritte unternommen, um den Missbrauch durch kommerzielle Parteien zu verhindern. Dazu gehören technische Einschränkungen für automatisierte Abfragen.

Wir bitten Sie um Einhaltung folgender Richtlinien:

+ *Nutzung der Dateien zu nichtkommerziellen Zwecken* Wir haben Google Buchsuche für Endanwender konzipiert und möchten, dass Sie diese Dateien nur für persönliche, nichtkommerzielle Zwecke verwenden.

+ *Keine automatisierten Abfragen* Senden Sie keine automatisierten Abfragen irgendwelcher Art an das Google-System. Wenn Sie Recherchen über maschinelle Übersetzung, optische Zeichenerkennung oder andere Bereiche durchführen, in denen der Zugang zu Text in großen Mengen nützlich ist, wenden Sie sich bitte an uns. Wir fördern die Nutzung des öffentlich zugänglichen Materials für diese Zwecke und können Ihnen unter Umständen helfen.

+ *Beibehaltung von Google-Markenelementen* Das "Wasserzeichen" von Google, das Sie in jeder Datei finden, ist wichtig zur Information über dieses Projekt und hilft den Anwendern weiteres Material über Google Buchsuche zu finden. Bitte entfernen Sie das Wasserzeichen nicht.

+ *Bewegen Sie sich innerhalb der Legalität* Unabhängig von Ihrem Verwendungszweck müssen Sie sich Ihrer Verantwortung bewusst sein, sicherzustellen, dass Ihre Nutzung legal ist. Gehen Sie nicht davon aus, dass ein Buch, das nach unserem Dafürhalten für Nutzer in den USA öffentlich zugänglich ist, auch für Nutzer in anderen Ländern öffentlich zugänglich ist. Ob ein Buch noch dem Urheberrecht unterliegt, ist von Land zu Land verschieden. Wir können keine Beratung leisten, ob eine bestimmte Nutzung eines bestimmten Buches gesetzlich zulässig ist. Gehen Sie nicht davon aus, dass das Erscheinen eines Buchs in Google Buchsuche bedeutet, dass es in jeder Form und überall auf der Welt verwendet werden kann. Eine Urheberrechtsverletzung kann schwerwiegende Folgen haben.

Über Google Buchsuche

Das Ziel von Google besteht darin, die weltweiten Informationen zu organisieren und allgemein nutzbar und zugänglich zu machen. Google Buchsuche hilft Lesern dabei, die Bücher dieser Welt zu entdecken, und unterstützt Autoren und Verleger dabei, neue Zielgruppen zu erreichen. Den gesamten Buchtext können Sie im Internet unter `http://books.google.com` durchsuchen.

Druck von Metzger & Wittig in Leipzig.

Vorwort.

Der vorliegende Band enthält ein Register sämmtlicher in den ersten fünfzehn Bänden der Beiblätter (Jahrgang 1877 bis 1890) veröffentlichten Referate und Literatur-Angaben, nach den Namen der Autoren geordnet. — Die fetten stehenden Ziffern geben die Band-, die gewöhnlichen Ziffern die Seitenzahl an; wo letztere von einer kleinen hochstehenden Ziffer begleitet ist, giebt diese an, wieviel Referate desselben Autors auf der Seite vorkommen. Die schrägen Ziffern beziehen sich auf die blossen Literaturnachweise. — Beim Nachschlagen der letzteren ist zu beachten, dass sie erst vom 7. Beiblätter-Band an sich mit besonderer, in [ ] stehender Paginirung am Schluss des Bandes befinden, während die Bände 1 bis 6 nur eine durchlaufende Paginirung tragen, so dass die Literaturangaben ihren Platz am Ende jedes Heftes auch nach dem Einbinden behalten haben. Die Angabe, wie oft ein Name auf derselben Seite der Literatur-Uebersicht vertreten ist, wurde, da Wiederholungen hier sehr häufig sind, unterlassen; es ist daher die ganze Seite durchzusehen, falls die gesuchte Abhandlung nicht mit der gefundenen übereinstimmt, wie es auch schon bei den Bandregistern erforderlich war.

Was die alphabetische Ordnung betrifft, so sind die in dem von der Royal Society herausgegebenen Catalogue of Scientific Papers geltenden Regeln sowohl ihrer Zweckmässigkeit als auch der wünschenswerthen Uebereinstimmung halber für vorliegendes Register ebenfalls massgebend gewesen. Es ist also zu beachten:

Die Adelsbezeichnung: von, van, de u. s. w. ist hinter den eigentlichen Namen gestellt (Ebner, Victor von, Hoff, van't, Forcrand, de). Ausnahmen bilden die Fälle, in denen das Beiwort durch Herkommen als mit dem Namen verschmolzen betrachtet wird (VonderMühll, Demarçay, Delong).

Französische Namen, welchen ein Artikel vorgesetzt ist, stehen unter diesem und meist ohne davon getrennt zu sein (Leduc, Delacroix, Descloizeaux, Dubois; alleinige Ausnahme ist Bois-Reymond, du, weil dies die gebräuchliche Schreibweise des Namens ist).

Ebenso sind die Vorsilben Mac und O' stets zum Namen gerechnet, M' und Mc immer Mac geschrieben. McIntosh ist daher als Macintosh eingeordnet.

Das Beiwort Saint (Sainte) ist gleichfalls als zum Namen gehörend betrachtet, solche Namen sind also bei S zu suchen.

Zusammengesetzte Namen stehen, wenn englisch, unter dem Hauptnamen (Tolver, Preston; Metham, Dampier), französische immer unter dem ersten Namen (Macé de l'Epinay, Lecoq de Boisbaudran).

Der deutsche Umlaut ä, ö, ü ist immer so geschrieben und bei der alphabetischen Anordnung nicht besonders berücksichtigt, also nicht als ae, oe, ue eingeordnet, wie in mehreren Bandregistern der Beiblätter geschehen, sondern als a, o, u betrachtet. In niederdeutschen Namen dagegen, wo das nachgesetzte e nur als Dehnungszeichen dient, gilt es als Buchstabe.

Bei der Wiedergabe russischer Namen ist die deutsche Schreibweise durchgeführt worden, auch wenn in den Beiblättern die Namen, z. B. bei Referaten aus französischen Zeitschriften, französische Schreibweise haben und ebenso in dem betr. Bandregister stehen. Im vorliegenden Register steht also Luginin, Butlerow, Mertsching u. s. w. für Louguinine, Boutlerow, Merczyng.

Abhandlungen, welche mehrere Verfasser haben, sind unter jedem der einzelnen Namen aufgeführt, also Liveing u. Dewar sowohl unter Liveing als auch unter Dewar; mehrnamige Firmen sind dagegen nur so registrirt wie sie lauten, Siemens & Halske also nur unter S.

Die anonymen Referate und Literaturnachweise sind am Schluss des Registers in einem besonderen Alphabet nach den Schlagworten zusammengestellt, während die meisten derselben in den Bandregistern gar nicht aufgenommen waren.

Es könnte auf den ersten Augenblick scheinen, als ob zur Herstellung eines Registers wie das vorliegende nichts nöthig sei, als das Zusammenstellen der am Schluss eines jeden Bandes befindlichen Register, und dass dann ohne Weiteres jeder Autorname seine richtigen Seitenangaben erhielte.

Bei einer Zeitschrift, welche, wie die Beiblätter, ihren Inhalt aus einer grossen Zahl in- und ausländischer Publikationen schöpft, ist aber dieses Verfahren unausführbar, wenn das Hauptregister allen Bedingungen der Brauchbarkeit entsprechen soll. — Die Schreibweise des Namens eines Autors ist oft schon, je nach der Sprache, in welcher die Arbeit veröffentlicht wird, verschieden, und geht also auch verschieden in die Beiblätter über. Am häufigsten ist diese Verschiedenheit bei den gewöhnlich abgekürzten Vornamen, so dass diese, welche doch zur Unterscheidung von Autoren gleichen Familiennamens dienen sollen, häufig neue, ganz ungegründete Unterschiede erzeugen; dazu kommt, dass ein und derselbe Autor manchmal ohne, manchmal mit verschieden abgekürzten Vornamen unterzeichnet, dass ferner Schreib- und Druckfehler der Namen schon in den Original-Abhandlungen vorkommen, andere bei Herstellung der Beiblätter entstanden und in die Bandregister übergingen.

Um diese beim Nachschlagen lästigen, oft sogar irreführenden Fehler nach Möglichkeit zu vermeiden, wurde das vorliegende Hauptregister durch Neu-Aufnahme des Inhalts aller Bände hergestellt und sind die dabei gefundenen Unrichtigkeiten und Unregelmässigkeiten in das Registermanuscript berichtigt aufgenommen worden. — Es kommt also vor, dass die Namenschreibung im Hauptregister mit derjenigen an der betreffenden Stelle der Beiblätter nicht genau übereinstimmt; in diesen Fällen ist anzunehmen, dass die Angabe des Hauptregisters die richtige ist, da in zweifelhaften Fällen fast immer auf die Originalpublikation zurückgegangen und diese als massgebend angenommen wurde.

Bei einigen Namen, besonders Vornamen, war es allerdings auf keine Weise möglich das Richtige festzustellen und kann also die absolute Richtigkeit aller Angaben des Registers nicht versichert werden.

Wer bei Benutzung der Register mancher Publikationen unter ein und demselben Namen den Arbeiten verschiedener Autoren begegnet ist, oder die Arbeiten ein und desselben Autors unter verschiedenen Artikeln eines solchen Registers mit Mühe zusammengesucht hat, wird ermessen können, wie zweckmässig ein Hauptregister ist, in welchem bei jedem Autor, einerlei wie er unterzeichnet hat, dessen Arbeiten beisammen zu finden sind. Er wird auch einen Begriff von der Mühe haben, welche die Aufnahne des Inhalts von 15 Jahrgängen der Beiblätter, in denen etwa 5000 Autornamen bei den Referaten und mehr noch in der Literatur-Uebersicht vorkommen, und die Sichtung der dabei auftretenden Unregelmässigkeiten verursachte, und wird entschuldigen, wenn auch diese Arbeit sich nicht als fehlerfrei erweist. Es mussten etwa 18,000 Referate und noch mehr Literatur-Angaben aufgeschrieben und gesetzt werden, dass hierbei alle alten Fehler beseitigt und gar keine neuen entstanden sein sollten, ist undenkbar.

Selenium ***5**, 159.*
Silbervoltameter, Gebrauch desselben **15**, 658.
Sonnenfinsterniss v. 19. Aug. 1887. **15**, 206.
Spectralanalyse, Bericht darüber und Literatur **8**, 705; **9**, 578.
Spectroskop (f. Metallspektra) **6**, 675.
Spectroskopische Untersuch. b. d. Norweg. Polarexpedition **13**, 884. (s. Greenwich.)
Stereoskopische Wirkung bei Projectionen **10**, 108.
Stopfen, luftdichte **8**, 242; **10**, 59.
Thermosäule von Ascheson **9**, 134.
Tinte, unzerstörbare **10**, 306.
Überladen der Leydener Flasche **14**, 916.
Umschalter für galvanische Batterien **13**, 531.
Universalkitt **10**, 205.

Unterscheidung d. + u. — Pols d. Influenzmasch. **10**, 251.
Verhandl. d. 63. Versamml. deutscher Naturforscher **14**, 1201.
Versilberung, rasche **9**, 360.
Versilberungs-Pasta **10**, 60.
Virial, Gebrauch des. in d. Thermodynamik ***2***, *303*.
Volta-Bogen, Nichtexistenz eines solchen in den Glühlampen Syst. Reynier ***3***, *443*.
Wärme durch Reibung, Demonstration **7**, 416.
Wasserheben, alte Maschine dazu **15**, 523.
Wasserstrahl-Luftpumpen **9**, 757.
Weglänge, mittlere, des Molecüls **4**, 501.
Weichloth f. Metall, Glas etc. **7**, 140; **8**, 151.
Wellenlängen der Spectra d. Elemente **9**, 578.
